

e-Newsletter 8 - Looking ahead to a new decade

Introducing the Calendar

Welcome to a New Year please do take a look at our *Camera Craft Training Calendar*. Visit the website www.jeremyhumphries.com/Course+Calendar for more details and listings of scheduled camera workshops coming up throughout 2010. You can now plan which courses you want to attend. For example, combine the ever popular *Intermediate Camera Craft* with an *Advanced Camera Craft Workshop*, or for those delegates from the photo imaging sector, you can attend an *On Location Workshop* followed by one of three *Camera Craft Workshops*. The choice is yours!

The *One to One Bespoke* workshops, where you choose a topic and date, will continue to run. We will be publishing workshop calendars for all our *Reel of Experience* skills over the coming weeks, so you will be able to link your training from one end of the production process to the other. *Camera* to *Editing* and *Voice Coaching* to *Sound Recording*!

We are also having our timetable widely available to view on a number of industry websites. [Film Crew Pro](#), [Skillset](#), [BFI](#), [BECTU](#), [Bristol Media](#) and [Shooting People](#) will all have listings.

Jeremy Humphries Team Away Day

Jeremy and the team spent a wonderful day in December at Bailbrook House in Bath. The aim was to get all the associate trainers together to discuss the way ahead for this year and the new decade! It was clear that everyone shared the same attitude and passion, and not only has the team some fantastic ideas, but immeasurable skills, knowledge and experience. If you have not yet had a look at the profiles of our team, look at the website www.jeremyhumphries.com/Profiles to visit their individual pages.

Training Update

Jeremy fitted in a few days training between filming and travelling to Singapore in December. This time he was in Plymouth, again with the *Twofour Group*, running a 2 day workshop. Over the next week we will be producing a camera workshop for *Optomen TV*, neatly spaced between shooting commitments!

Visit to Singapore

In December Jeremy visited Singapore for 5 days, expertly facilitated by [South West Screen](#) and the [UKTI](#). Jeremy visited the [Asian Television Forum](#) and had non-stop meetings with leading media and business figures in this hyperactive and accommodating region of SE Asia. Our plan is to run camera craft workshops, in addition to production skills, in what can only be described as a burgeoning creative and media market.

Having been labelled in an article recently as a '*Tutor, Trainer, Shooter, Teacher,*' Jeremy can of course take his up to date experience and knowledge straight from the location to the workshop.

Current Filming Projects

Jeremy is currently filming the final edition of '*Police Camera Action*'. He also sneaked in, just before Christmas, a wonderful film produced by Optomen TV: '*Ration Book Britain*'. Transmitted on the *Yesterday* channel, earlier in January, it received rave previews in the press; look out for a certain repeat.

Follow Jeremy's Blog <http://jeremyhumphries.wordpress.com/> to keep up to date with Jeremy's training and shooting news.

Social Networking

In addition to the now well established Blog, Jeremy is now a member of *LinkedIn*, to view his profile visit <http://uk.linkedin.com/pub/jeremy-humphries/15/a8/13a>

If you too are a *LinkedIn* member, please do 'Link In'. Also we are working hard on our plans for *You Tube*, Jeremy keeps mentioning it in his Blog, and we don't want to say too much until it is up and running, but think of '*Endless questions and nobody to ask*'!

Let us know if you would like to see anything else appear in our newsletter – or to find out about our courses visit our website www.jeremyhumphries.com
